

SUSTAINABILITY & ENVIRONMENTAL CERTIFICATIONS

Objective: Certification and chain of custody verification ensure that raw materials used in High Pressure Decorative Laminates (HPL) are sourced responsibly from certified forests, manufactured under controlled management systems, and comply with internationally recognized environmental, quality, and occupational safety standards.

Validation: Certifications are issued by internationally accredited certification bodies following independent third party audits in accordance with ISO management system standards and globally recognized forest certification schemes including FSC®, PEFC™, and Green Label environmental standards.

Results: Rushil Decor Limited maintains valid ISO management system certifications and certified Chain of Custody systems under FSC® and PEFC™, along with Environmental Green Label certification, confirming compliance with international sustainability, quality, and environmental responsibility requirements.

1. ISO Management System Certification

Description: Certification of integrated management systems covering quality management, environmental management, and occupational health & safety practices across manufacturing operations.

Standard: ISO 9001:2015 + ISO 14001:2015 + ISO 45001:2018

Test Results / Certification Status: Certified and valid until 08 October 2028, subject to successful surveillance audits.

3. PEFC™ Chain of Custody Certification

Description: Certification ensuring traceability of PEFC-certified forest-based materials used in laminate production under controlled chain-of-custody procedures.

Standard: PEFC ST 2002:2020
PEFC ST 2001:2020

Test Results / Certification Status: Certified for purchase and manufacture of PEFC Certified High Pressure Laminates under Physical Separation Method.
Valid until 29 September 2030.

4. Green Label Certification

Description: Environmental certification confirming that laminate products meet sustainability and environmental performance criteria for surface coverings.

Standard: SEC Green Label Category 42 – Surface Coverings

Test Results / Certification Status: Certified as Environmentally Preferred Surface Coverings.

Valid from 07 July 2025 to 16 August 2026.
